Approved resources delivered

On completing this program, participants will:

- Have an awareness of how their own values, attitudes and experiences will impact on their understanding of children and young people being harmed and their responses to children and young people who may have suffered harm.
- Be aware of the importance of maintaining a child's perspective when considering the possibility of children and young people at risk of harm.
- Have the ability to identify a range of indicators concerning harm and risk of harm.
- Be able to discuss the concept of child-safe environments and shared responsibility for the protection of children and young people.
